1 GENERAL INFORMATION

1.1 Purpose

This Request for Proposals (RFP) is issued by the Department of Children and Family Services (herein referred to as the State) for the purpose of a performance-based contract to continue the implementation of Quality Start and begin to review the impact of a Tiered Quality Rating and Improvement System (TQRIS) relative to quality in early learning and development settings. A major focus of this development will be to support early educators in improving the quality of care offered which should result in children being better prepared for school. A critical component in achieving school readiness is social – emotional development. Therefore child care mental health consultation services will inform staff in their efforts to support this development. Equally significant will be the analysis of all data collected from the TQRIS to support recommendations related to strengthening the social emotional health of infants, toddlers and pre-school children.

One contract shall be awarded statewide.

1.2 Background

The Louisiana Department of Children and Family Services (DCFS) is an administrative department within the Executive Branch of State government in Louisiana. The Vision of DCFS is working to keep children safe, helping individuals and families become self-sufficient, and providing safe refuge during disasters.

DCFS Programs and Organization

DCFS is a public-funded service organization whose purpose is to administer the public assistance and welfare laws of the State and to provide high quality social programs and services to Louisiana residents at the lowest possible cost to the taxpayers. In general, services are administered statewide within a centralized organizational framework with a DCFS headquarters overseeing state offices, regional offices, district offices and parish offices.

The contract will fund the costs associated with the continued implementation of Quality Start. Funds to be awarded under this project have been made available through the Federal Child Care Development Fund (CCDF). As of August 14, 2012, Louisiana has approximately 1487 licensed Class A child care centers in addition to a number of public and non public schools that may also wish to participate in these services.

The Louisiana Child Care Quality Rating System is known as "Quality Start." Quality Start provides a method to assess, improve and communicate the level of quality in early care and education settings. In recognition of the need to build and support an increase in the quality child care options available to families, DCFS has worked with community leaders, stakeholders, providers and advocates across the state to design a TQRIS for child care centers. A TQRIS is based upon research to identify the components most critical to positive child development outcomes. States construct a TQRIS that fits with their current licensing requirements, and

existing supports and systems to help providers achieve the standards as well as the capacity of the state to implement the TQRIS.

Quality Start is a voluntary program. It combines existing and new supports for child care into one system. Quality Start builds on the foundation of licensing and adds multiple steps between licensing standards and higher quality criteria. More information on the TQRIS can be found at www.QRSLouisiana.org.

ATTACHMENT I: SCOPE OF SERVICES

1 Overview

The Contractor shall provide vital services required by the Louisiana Child Care Quality Rating System also known as "Quality Start." Quality Start provides a method to assess, improve and communicate the level of quality in early care and education settings. In recognition of the need to build and support an increase in the quality early care and education options available to families, DCFS has worked with community leaders, stakeholders, providers and advocates across the state to design a TQRIS for child care centers. A TQRIS is based upon research identifying the components most critical to positive child development outcomes. Each individual state constructs a TQRIS that fits with their current licensing requirements, and existing supports and systems to help providers achieve the standards as well as the capacity of the state to implement the TQRIS.

Quality Start is a voluntary program. It combines existing and new supports for child care into one system. Quality Start builds on the foundation of licensing and adds multiple steps between licensing standards and higher quality criteria. More information on the TQRIS can be found at www.QRSLouisiana.org.

A TQRIS serves three overriding functions:

1. A guide for parents
2. A benchmark for program improvement
3. An accountability measure for funding

Licensed child care centers in compliance with LA Administrative Code, Title 67, Chapter 73, Sections 7301 - 7350 with the Child Care Licensing and Regulatory Section (hereafter referred to as Licensing) are eligible to apply for the first Quality Start level. To attain higher star-rated levels, licensed child care centers will be assessed by the Contractor on criteria in four categories:

1. Administrative Practices
2. Family and Community Involvement
3. Program
4. Staff Qualifications

The Environment Rating Scales (ERS), developed by Harms, Clifford and Cryer, at Frank Porter Graham Child Development Institute, University of North Carolina-Chapel Hill campus, shall be used in assessing the Program component of Quality Start for three to five stars. In order to attain the second star rating level, child care center directors must attend a training session on the ERS and meet additional criteria. To qualify for TQRIS levels three – five, scores from ERS classroom assessments shall be used along with staff qualifications and other criteria. Two ERS scales shall be used in classroom assessments: the Early Childhood Environment Rating Scale Revised (ECERS-R) and the Infant Toddler Environment Rating Scale Revised (ITERS-R). More information on the TQRIS can be found at www.QRSLouisiana.org.

Environment Rating Scale (ERS) Training

Contractor will be available by phone and/or appointment to provide ongoing consultation to Child Care Resource and Referral (CCR&R) agencies, as well as other interested early care and education professionals, to assist them in developing plans to address areas of weakness identified by the ERS, plans that can be used to support providers in their efforts to enhance the quality of care given in their centers. The contractor will provide semi-annual updates on the progress, trends, and areas of concern based on the ERS results to interested child care sector stakeholders.

Environment Rating Scale Assessments, utilizing the Early Childhood Environment Rating Scale Revised (ECERS-R) and the Infant Toddler Environment Rating Scale Revised (ITERS-R)

The Branagh Information Group remains the only licensed software available for use with the ERS and will be available at no cost to contractor.

Contractor will strictly adhere to the guidelines established by the authors of the scale in conducting assessments. Contractors will complete assessments using the computerized ERS Data System. The overall number of ERS Assessors and Anchors needed must meet the early care and education provider capacity in Louisiana.

During every 12 month period, assessments shall be conducted for the third of all classrooms and at least one classroom at each age level in child care center applying for a quality rating. Additional ratings to support provider knowledge and confidence shall be conducted in accordance with Quality Start policies. The contractor shall give DCFS access to database systems that are used to collect data.

Any out of state travel related to presentations must be approved by CDEL. The contractor shall have the DCFS logo on all media and published materials including but not limited to brochures, posters and training booklets that are purchased with contract funds.

Termination for Cause

The State may terminate this Contract for cause based upon the failure of the Contractor to comply with the terms and/or conditions of the Contract; provided that the State shall give the Contractor written notice specifying the Contractor's failure. If within thirty (30) days after receipt of such notice, the Contractor shall not have either corrected such failure or, in the case which cannot be corrected in thirty (30) days, begun in good faith to correct said failure and thereafter proceeded diligently to complete such correction, then the State may, at its option, place the Contractor in default and the Contract shall terminate on the date specified in such notice. The Contractor may exercise any rights available to it under Louisiana law to terminate for cause upon the failure of the State to comply with the terms and conditions of this contract; provided that the Contractor shall give the State written notice specifying the State's failure and a reasonable opportunity for the state to cure the defect.

Termination for Convenience

This contract may be terminated by either party upon giving thirty (30) days advance written notice to the other party but in no case shall continue beyond specified termination date. The contractor shall be entitled to payment for work in progress, to the extent work has been performed satisfactorily.

Subject to this provision, such non-performance shall not be considered cause or grounds for termination.
